SUMMARY
Seeking an internship/co-op opportunity for Spring/Summer 2018. **4+ years of professional experience as a software developer**

EDUCATION
Master of Science in Software Engineering, GPA: 3.76   **Jan 2017 – Dec 2018**
San Jose State University, San Jose, CA
Graduate Coursework: Enterprise Distributed Systems, Enterprise Software Platforms, Cloud Computing, Big Data

Bachelor of Technology in Computer Science, GPA: 3.56   **Aug 2008 – Jun 2012**
Guru Gobind Singh Indraprastha University, Delhi, India

SKILLS
Programming Languages	: Java, Javascript, SQL, PL/SQL, HTML
Frameworks	: NodeJS, ReactJS, REST, SOAP, JSF, Scrum/Agile, JUnit
Cloud Technologies	: AWS, Docker, Heroku
Web Servers	: IBM WebSphere, JBoss, Apache Tomcat
Database	: Oracle, MySql, MongoDB
Tools	: SoapUI, Postman, SVN, Git, Eclipse, RSA, Bamboo, JIRA, WebStorm

ACADEMIC PROJECTS
Dropbox Web Application   **Sep 2017 – Present**
- Building a Dropbox prototype to implement features like file upload, list files, file sharing, connection pooling
- Technologies Used: ReactJS, NodeJS, Redux, MySQL, JMeter, MochaJS

On The Spot, Android Application   **Mar 2017 - May 2017**
- Developed a mobile application for automated complaint reporting using image and speech recognition.
- Reduced user effort to find complaint authority to 0%
- Technologies Used: Google Vision API, Speech API, Geo Location API, IBM Watson, AWS Mobile Hub, Send Grid API

Starbucks Web Application, Multi-tenant, AWS   **Mar 2017 - May 2017**
Youtube Link: https://www.youtube.com/watch?edit=vd&v=cUX8NkE5PPE
- Implemented a Rest API based multi-tenant order processing system hosted on AWS
- Developed a back-end system which was 100% fault tolerant and highly scalable
- Technologies used: JAVA Restlet, NodeJS, Javascript, AWS EC2, MongoDB, Kong API gateway

PROFESSIONAL WORK EXPERIENCE
Senior Software Developer, OneShield Inc, India   **Oct 2016 - Jan 2017**
- Interacted with clients for requirement gathering and analysis and prepared design documents
- Designed and developed document rendering system to generate policy documents using SOAP based web services which reduced manual effort

Software Developer, OneShield Inc, India   **Sep 2014 - Sep 2016**
- Developed key features of P&C insurance like document delivery preferences, customer portal, payment plan using Java, PL/SQL, SQL
- Developed unit test cases and performed unit testing using JUnit
- Coordinated and deployed release to testing environments using Bamboo
- Modified and debugged several PL/SQL programs which improved the performance by 50%

System Engineer, Infosys Ltd, India   **Aug 2012 - Aug 2014**
- Developed front-end and back-end for key enhancements - Import/Export Tenant Details, Security Evaluation using JSF, SQLJ, JavaScript
- Fixed critical defects occurred during system testing and user acceptance testing
- Recognized as an outstanding performer resulted in representing the Relationship Management Platform team in on-site production deployment at Royal Bank of Scotland, Chennai, India

AWARDS & ACHIEVEMENTS
- Completed AWS Solutions Architect Associate certification in July 2017
- Received appreciation certificate from Pravin Chandra, Delivery Manager, Infosys Ltd, for my work in project called RMP (Relationship Management Platform) in January 2014
